

The New Life Christian Academy & Pre provides both academic and Christian training to all students. We believe in putting God first in all that we do, therefore each morning begins with devotion and training from the Word of God. Although the remainder of the day is devoted to academic training, the environment is always one of Christian love. We believe that we are called to raise and prepare the next generation for the purpose in which God has made them. Our goal is to see that each student reaches his or her maximum potential. Our school provides a wide variety of curricula for students.
